

For getting the best portfolio site out of me, structure your message like this:

1. Inspiration screenshots — upload them inline, and for each one write one sentence on what specifically you like. "I like the project cards on this one" beats "this looks cool."

2. Design preferences — answer these directly:

Light or dark theme (or let me decide)?

Minimal/clean or bold/expressive?

Any colors you want or want to avoid?

3. Content dump — just paste it all raw, don't worry about formatting:

Full name + tagline/title (e.g. "marketing intern, media planner")

2–4 sentence bio

Projects:

Skills list

Any links: GitHub, LinkedIn, email, resume PDF

4. One sentence on the goal — who's going to see this? ("Applying for ML internships" vs "freelance design clients" changes a lot about the hierarchy and tone.)

Prompt:

I am making a personal portfolio website to host all of my projects for (INSERT JOB POSITIONS HERE) Here are the details of what to include in the website, as well as a link to an existing portfolio that I am taking inspiration from. The website will be hosted on github pages; let me know if you have any questions

<https://www.sylviaogweng.com/>

Site Details:

- Colors: Charcoal gray and white mostly, hint of carolina blue
- Take inspiration from link for styling
- Cool interactive details (cursor doing cool things, things look cool when hovering over etc)

- Home Page
 - Intro with a pic of me (About Me)
 - 2-4 sentence bio
 - Resume Link/Linkedin
 - Skills with a short blurb
- Portfolio Page
 - Similar layout to the template website
 - Projects have separate rectangles; clicking into them gives more information about each project
 - Types of Projects/Works
 - Internship
 - Bilin Technology
 - House of Hur
 - Class Projects and Figma Projects
 - Social Media (KASA) and Podcast Social Media for Class called Can You Hear Us Now.
 - Made graphics and tiktoks for Social Media and will add pictures of examples,
- Photography Page
 - Gallery style page to showcase all of the photos
 - Minimal words if any
- Contact Me
 - Linkedin
 - Email

Internship: add a few sentence of explanation of my role there or turn into bullet point of what i did based on my resume.

Project List:

- Project Name (Project Purpose)
 - 1-2 sentence blurb describing the project
 - Skills that you needed (websites/technologies used)
 - Time: When the project was completed
 - Link to project if applicable
 - Screenshots of project
